

List of Sessions under All Division 8 Meeting

ID.	Title	Format	Name of Organizer	Organization
5	Invasive Species and Forest Ecosystems under Changing Climate: Ecological, Economic and Social Impacts	Oral and poster presentations	Daizy R. Batish	Deputy Coordinator, IUFRO 8.02.04, Department of Botany, Panjab University Chandigarh, India
24	Operational methods for monitoring and assessment of forest landscapes	Oral presentations only	Peter Vogt	European Commission
33	Advancing on ecohydrological processes and watershed management	Oral and poster presentations	Shirong Liu	Chinese Academy of Forestry
42	Forest biodiversity and resilience under changing environmental conditions	Oral and poster presentations	Anne Oxbrough	Edge Hill University, UK
43	Managing invertebrate diversity for forest function and resilience	Oral and poster presentations	Anne Oxbrough	Edge Hill University
46	Wind disturbance and forest sustainability under a changing climate	Oral and poster presentations	Dr. Barry Gardiner	INRA, France
48	Social dimension of wildlife conservation and management	Oral presentations only	Prof. Maciej Skorupski	Professor and Head of Department of Game Management and Forest Protection; University of Life Sciences in Poznań, Poland

53	Response of forest ecosystems to climate change: Results from experimental manipulations	Oral and poster presentations	Andreas Schindlbacher	Federal Research and Training Centre for Forests, Natural Hazards and Landscape - BFW, Austria
56	Using tree rings to study events and morphological changes: relevance, methods and recent advances in dendrogeomorphic research	Oral and poster presentations	Christophe CORONA,	GEOLAB
57	The concept of insurance value of risk disaster reduction/mitigation forest ecosystems service: how to use this concept, which methodologies and tools for providing the economical evaluation of risk reduction nature based solutions?	Oral and poster presentations	Frédéric Berger	Irstea
58	Remote sensing for hazard mapping and risk management.	Oral and poster presentations	Jean-Matthieu Monnet	Irstea
66	Enhancing connections between forest ecology and management	Oral presentations only	Dan Binkley, Mark Adams, Todd Frederiksen, Jean-Paul Laclau, Harri Mäkinen, Cindy Prescott	Forest Ecology and Management
79	Designing Forest Ecosystem Services Programs: Institutions to Support Sustainable Forests and Communities	Oral presentations only	William Nikolakis	University of British Columbia
81	Old-growth forests in a changing world: relict of the past or ecosystem service generator for the future??	Oral presentations only	William S. Keeton	University of Vermont, U.S.A.

90	Nutrient Dynamics in Forest Soils: The Foundation of Sustainable Forest Environments	Oral and poster presentations	Thomas R. Fox	Virginia Tech University
92	From East to West: Managing Ecosystem Services in Mountain Forests Around the World	Oral and poster presentations	Dr Alexia Stokes	INRA, Montpellier, France
93	Forest carbon sequestration	Oral and poster presentations	Hailong Wang	Zhejiang A&F University
95	Nature-based solutions to climate change mitigation and adaptation.	Oral and poster presentations	ZHANG Xiaoquan	The Nature Conservancy
96	Dynamics of radiocesium and its influence on forest ecosystem and forestry -- the future direction	Oral and poster presentations	Shinji Kaneko	Forestry and Forest Products Research Institute, Japan
110	Co-existence of human and wildlife in changing landscapes and climate	Oral and poster presentations	Chabi A. M. S. Djagoun	University of Abomey-Calavi, Benin
