

## ITTO/IUFRO/AFoCO Side Event

### **Building Healthy and Resilient Landscapes through FLR: “Forest-based solutions for climate, biodiversity and livelihoods”**

**TUESDAY, MAY 3, 2022 17:30 - 19:00 (GMT +9)  
Venue: Conference Room 308A**

Enormous changes have occurred in forest landscapes in recent decades, and large areas—nearly a billion hectares—have become degraded, requiring urgent and site specific restoration efforts that are ecologically sound and responsive to social inclusion and economic development. In light of the importance of implementing effective forest landscape restoration (FLR) interventions for a green post-COVID19 recovery, the event will showcase key FLR guidelines and best practices for accelerating ground-level action for building healthy, resilient, and productive forest landscapes with enhanced climate, biodiversity and livelihood benefits.

#### **Keynote Presentation**

#### **FLR: Interventions into social- ecological systems**

**Prof. John Stanturf**

IUFRO-SPDC/ Estonian University of Life Sciences  
USA

#### **Guidelines for FLR in the Tropics**

**Prof. Jürgen Blaser**

Bern University, Switzerland

#### **Session Moderator**

**Dr Hwan-ok Ma**  
ITTO
