

# International Union of Forest Research Organizations

The International Union of Forest Research Organizations, IUFRO, is an independent, open and unique network for people and organizations with a research interest in and a focus on everything related to forests, trees and forest products.

**250**  
*research units*

*more than*  
**15,000**  
*scientists*

**630**  
*member organizations*

**5**  
*programmes & projects*

**Forests**

**Interconnecting**

**Science**

**115**  
*countries*

**700**  
*voluntary coordinators*

**People**

*established in*  
**1892**

**70-80**  
*yearly meetings*

## More reasons to join

*enables worldwide cooperation*

*puts you in contact with peers*

*makes your science visible*

*offers you an international career*

*honors your scientific achievements*

*promotes broad knowledge sharing*

*supports young forest scientists*

*fosters research excellence*

*builds research capacities*

*increases research impact on policy*

*links research to practice*

*endorses the SDGs*
