

IUFRO HQ citation style

Background

In order to homogenize the different citation styles used by authors publishing with the Headquarters of the International Union of Forest Research Organizations (IUFRO HQ), at IUFRO HQ we developed a simple and harmonized citation style that will be available from the databases of the most commonly used reference management software under the name 'International Union of Forest Research Organizations – Headquarters'. We encourage our authors to make use of this citation style and we offer its use to anyone in need of a simple and consistent citation style.
