

School of Forest Resources, University of Maine
Speaker Series Seminar

**Exploring the Potential of Solid Structural Timber (SST) as a Sustainable
Alternative to Conventional Mass Timber**

Amelia Baxter, CEO and Co-founder of WholeTrees Structures

With the recent launch of WholeTrees Maine, Amelia Baxter discuss how SST maximizes the strength of unprocessed round and sawn timber, reducing waste while supporting carbon-smart forestry and regional economies. Ms.Baxter will highlight how this approach provides higher returns for foresters, enhances low-carbon construction, and expands sustainable timber markets across the eastern United States and beyond.

12:00 PM- 12:50 PM (EST), Wednesday, March 12th, 2025

Room No.204, Nutting Hall.
