Countries represented: *(Mainly Canada and USA with presence of international students from several countries, including Iran, India, China, Madagascar, Nepal, Tunisia, France)*

3) Organization of the meeting:

All IUFRO Units involved: *Division 3*
Host organization(s) and sponsor(s): *FORAC Research Consortium, Université Laval*
Study tour(s) to:

4) Meeting report (max. 100 words per paragraph)

- a) *Background information (meeting context)*
- b) *Key issues discussed/latest findings in the field (bullet points or text)*
- c) *Conclusions (if possible, summarize key conclusions across presentations):*
- d) *Outlook to future activities (proceedings, future meetings, other):*

The FORAC research consortium of Université Laval in collaboration with Division 3 invited Dr. Han-Sup Han, Professor from Northern Arizona University to its seminar series, Petit Déjeuner. Dr. Han gave a talk entitled Forest Operations: A tool for forest management for a duration of 40 minutes. This was followed by a question answer period of 20 minutes. The main issues discussed in the meeting were the use of forest operations for the application of variety of forest management prescriptions and related challenges. The talk concluded with insights into adaptations required in forest operations to meet future needs.
