

# Wood For Globe

**Towards a global wood policy platform to support the use of sustainable wood for a carbon-neutral bioeconomy worldwide**

**Stocktaking** of technical and scientific knowledge, policies and initiatives globally

**Mobilising** expertise of policy makers and scientists and interaction with society

**Exchanging** knowledge, experience and good practice worldwide

**#WoodForGlobe**  
**#SW4SW**

 **Forest Fund**  
Republic of Austria

An initiative by the Federal Ministry of Agriculture, Forestry, Regions and Water Management

Moving towards a sustainable low-carbon bioeconomy has emerged as a global goal. The forest sector is in a unique position to contribute significantly to the achievement of this goal.

**Wood For Globe** aims to strengthen wood policy networks and platforms by mobilising policy makers, scientists and society to exchange knowledge, experience and good practices globally.

The project is aligned with Sustainable Wood for a Sustainable World (**SW4SW**), a Joint Initiative of the Collaborative Partnership on Forests (**CPF**).
