

Webinar and discussion on supporting Europe's forests through sustainable forest management and carbon certification

Agenda

Date: Thursday 7th December 2023

Time: 09:30 – 11:30 CET

Location: Microsoft Teams. [Link here.](#)

Time (CET)	Session
09:30-09:40	Welcome, agenda overview, and intro question
09:40-09:50	Presentation of INFORMA research project
09:50-10:20	SESSION 1 Presentation by content expert: Forest carbon certification methodologies Speaker: Julia Grimault, Team Lead, Forest-based sector, carbon certification, Institute for Climate Economics (I4CE) Discussion: How can we build a Monitoring, Reporting and Verification (MRV) framework in carbon certification that is robust enough to ensure transparent projects, but also cost-effective and implementable? What are the methods to monitor this carbon sequestration?
10:20-10:50	SESSION 2 Presentation by content expert: Carbon storage in wood products certification Speaker: Samy Porteron, Programme Manager, ECOS Discussion: Forests offer huge potential in carbon storage, sink, and sequestration. How can forest carbon certification support climate-smart forestry economies?
10:50 – 11:20	SESSION 3 Presentation by content expert: Managing supply and demand in a timber marketplace Speaker: TBC Discussion: TBC
11:20 – 11:30	What next? How to get involved Co-creating sessions on improved carbon certification in Europe
